

Dear Medical Provider:

Thank you for your continued partnership with PENRAD Imaging. We remain committed to offering a full range of advanced imaging services to support the accurate diagnosis and management of your patients' care.

We would like to highlight our Nurse Navigator Program, which guides patients through the breast imaging process from screening through diagnosis. Our navigators help patients understand their results and next steps, improving both patient experience and continuity of care.

We have expanded this program to include optional referral coordination for patients who may require breast surgery or additional treatment. PENRAD Imaging works closely with CommonSpirit Breast Surgeons Colorado Springs, who are prepared to initiate evaluation and treatment plans within 24-48 hours when needed.

We recognize and respect the preferences of each individual provider when it comes to managing referrals. As part of this expanded program, providers who wish to participate may opt to have our team assist with the referral coordination process. Those who prefer to continue managing their own referrals may do so without any disruption to their current workflow.

For your convenience, we have enclosed a form that allows you to indicate your preference. Please return the completed form at your convenience so we can support your workflow accordingly.

If you have any questions or would like to learn more about this program, please feel free to reach out to our Provider Relations line at 719-265-3761 or email providerrelations@csrad.com.

Sincerely,

A handwritten signature in black ink, appearing to read "TC", written over a horizontal line.

PENRAD Imaging – Breast Surgery Referral Service Participation Form

Provider Name: _____

Practice Name: _____

Contact Person (if different from Provider): _____

Phone: _____ Fax: _____ Email: _____

PENRAD Imaging offers a Breast Surgery Referral Service designed to streamline patient care following breast biopsy results.

Through this service:

- Our Nurse Navigators guide patients through the breast imaging follow up process
- Patients are automatically referred to breast surgeons at CommonSpirit Breast Surgeons Colorado Springs if breast surgery or additional treatment is needed

Please select one of the following:

YES – Participate in Referral Service

I would like PENRAD Imaging to:

- Utilize Nurse Navigators to coordinate care for my patients
- Automatically refer patients requiring surgical evaluation to CommonSpirit Breast Surgeons Colorado Springs

NO – Do Not Participate

I prefer to:

- Manage my own referrals for breast surgery evaluation

Acknowledgement and Signature

I understand that this selection will guide how PENRAD Imaging manages breast imaging referrals for my patients.
